HotCLM demo document

NOT A REAL CONTRACT. This file was generated for the HotCLM demo dataset.

Contract version - Internal redline

Stands in for our own marked-up revision, sent to the counterparty.
Filed by the lawyer reviewing the contract (or the requester, if none).

It carries no contract terms, names no party and bears no signature. Every seeded row of this kind holds its own copy of this same file; the seed stores one per row.

Shipped in the HotCLM repository under src/data/fixtures/ (Apache-2.0).
