HotCLM demo document

NOT A REAL CONTRACT. This file was generated for the HotCLM demo dataset.

Obligation evidence

Stands in for the proof that an obligation was performed: a delivery note,
a filed report, a countersigned notice.

It carries no contract terms, names no party and bears no signature. Every seeded
row of this kind holds its own copy of this same file; the seed stores one per row.

Shipped in the HotCLM repository under src/data/fixtures/ (Apache-2.0).
